- October 1          Members' Shop Tours

### **Board Meeting Highlights - 8/22/2015**

The Board of the TV Woodworkers Club met on August 22. Eighteen members were present. The following items were discussed.

Club members have engaged in 32 service projects year-to-date; two of these are still in progress.

Treasurer Rick Mannarino reported \$2631.17 in the General Fund, \$105.00 in the Toys for Tots fund, and \$2400.00 in the Kiln Amortization fund.

The Club has been promised several trees scheduled to be cut down soon, including a pecan tree in Sweetwater, a white oak in Tellico Village, and several golf course

trees. September 8, 15, and 22 have been reserved for possible wood cutting days.

There are currently eight Toys for Tots teams formed with 53 members in total, and nine individuals building toys. In addition, there are four members waiting to join a team.

The Club has in place an ongoing process to obtain all members' photographs for posting on the Club's web site.

President Lloyd Donnelly is organizing the Mentoring program and recruiting mentors. The next set of programs will begin after January 1.

## **Board Highlights (con't)**

John Johnson is organizing for Club presence at each monthly New Villagers meeting for recruiting.

Ten members will participate in a workshop on cabinet design and construction scheduled for September 10.

## **Doors & Pulls**

Bill McKeal

If you need cabinet doors for a project, don't pass up Doors & Pulls in Athens, TN. They have a million plus doors in inventory of various wood types and design. Their prices are very low for both first & seconds. They also have a wide selection of knobs & pulls plus all type of hinges and other types of hardware.

## **Wood Sale**

On August 25, after the wood in our kiln was pronounced dry, a large portion of it was quickly dispersed in the subsequent member sale.

## **August Program**

The speaker at our August meeting was Todd Reece from Whiteside Machine Company. Whiteside, located in Claremont, N.C., makes a wide variety of quality router bits, many of which were on view that night. Whiteside router bits were recently rated very well by Fine Woodworking magazine. Thanks to Todd for an excellent presentation.

Todd Reece shows members examples of various router bits manufactured by his company.

## **From Our Members' Shops**

Members shared the following projects at our August Show and Tell.

Ron Cirincione points out the features of his E-shaped jewelry box he fashioned out of cherry.

Bill McKeal shows off his lamp made from wormy chestnut, accented with bark sides.

Dave Sabo brought this very rustic looking manger he built for his wife's Christmas nativity scene .

Bill VanBrunt made this stool out of oak and finished it with linseed oil.

Dick Hoffmann turned these two vases with ultra thin sides. The maple vase was turned to 1/16", while the cherry vase was turned to 1/32". Dick inserted a light inside each vessel while still on the lathe and carefully worked the outside of each, using light shining through the wood to guide him on depth.

## Tools and Tips

Ed. Note: This tip is from a presentation from our July, 2015 meeting, entitled "60 Woodworking Tips in 60 Minutes or Less". You can view the entire presentation at our TVWW website. This is Tip #32.

# Easy Pattern Transfer

Make a photo copy of your pattern

Place the ink side down on the material you want the pattern on

Iron the copy to reactivate the ink and effect the transfer
