

The background features a blurred Christmas tree on the left side, decorated with green needles and warm-toned ornaments. The right side of the image is filled with a soft, out-of-focus bokeh of warm, golden-yellow and orange lights, creating a cozy holiday atmosphere.

It is made with **pine**. You can hang outside but it will need to be assembled with **waterproof glue and painted** to last longer. This is a great project to do with your parents!! When done, it will be something you can be proud of and hopefully be a home to many birds.
