Tellico Village Woodworkers Club

Resource Book

Overview

Welcome to the Tellico Village Woodworkers Club whose purpose is to advance knowledge and expertise of the woodworking craft through meeting programs, mentoring classes, and sharing of woodworking skills, projects and experience to its membership. Through our woodworking skills, the club actively contributes to the Tellico Village community and local non-profit organizations.

In this club Resource Book we have put together information and guides that should be helpful to all club members. This book identifies:

- Policies, practices and guidelines that reflects how the club operates
- Tools that are available for club members to use
- Members who can help you with a specific woodworking skill
- Where to buy lumber
- Where to find woodworking tools, specialty hardware, services, etc.

The club maintains this Resource Book. The Book is on the club website (www.tvwoodworkers.com). The intent is for members to print the Book, or selected sections, at home. (For members who do not have a computer or are not computer savvy, the membership chairperson can arrange for a hardcopy.)

We encourage members to send suggested new proven sources to the immediate past club president, who maintains the Book. These new sources will be considered for possible inclusion in updated versions of the Book. Remember we are trying to keep the Book manageable in size so only major sources will be included.

The Resource Book consists of three parts:

- Overview (a hard copy of this overview is handed out to new members upon joining the club)
- General club Information that includes:
 - a. Current officers and committee chairs
 - b. The club's By-Laws
 - c. Duties and responsibilities of officers and chairpersons
 - d. Club policies, practices, and guidelines
 - e. Log and lumber management policies and responsibilities
- Resources available to club members
 - a. Large shop tools managed by the club members
 - b. Portable tools managed by the club members
 - c. Loaner tools owned by club members
 - d. Technique and skill assistance
 - e. Lumber yard and wood suppliers
 - f. Suppliers of woodworking products and services

By-Laws

ARTICLE I - Name

The name of this organization shall be “Tellico Village Woodworkers Club” referred to herein as the “Club” or “TVWC”.

ARTICLE II - Purpose

The purpose of this not for profit organization is to promote further knowledge and expertise of the woodworking craft through learning and sharing experience.

ARTICLE III - Membership

Individuals who have an interest in the woodworking craft and reside in Tellico Village and the surrounding community are eligible to join the Tellico Village Club. There is opportunity for membership by any person anywhere outside the community, should that individual desire to be a member. The term of Membership shall be as long as dues are kept current.

ARTICLE IV - Dues

The Board shall establish the annual dues. Dues are payable upon joining and are renewable thereafter in April of each succeeding year.

ARTICLE V - Board of Directors

The Board of Directors shall be comprised of the elected Club officers: President, Vice-President, Vice-President Wood Operations, Treasurer, Secretary, plus the most recent Past President.

The Board will meet on a regular basis. A quorum of four (4) of the six (6) officers will be necessary to execute votes by the Board. The elected Club officers shall serve for a term of one year and perform the duties usually required of such officers including those as noted below. The By-Laws will serve as an outline to guide the officers. The terms of elected officers shall coincide with the Club year, from the conclusion of the April General meeting through the following April General meeting. The elected officers may be re-elected to their position or any other elected position in the manner as noted under “Club Officer Election”.

Elected Club Officer Duties:

- The President shall preside at all board and General meetings; have the authority to sign checks; and oversee the appointment of the nominating

committee by the Board. In coordination with the Vice President, recruits members to fill committee vacancies. Approves board minutes before Secretary sends them to members.

- The Vice-President shall act for the President if absent and assist the President, as necessary, in all Club activities.
- The Secretary shall take and obtain the Board's approval of minutes of all Board meetings, and keep necessary records.
- The Treasurer shall receive and deposit dues and other income, have the authority to sign checks, pay bills, keep the Club's official financial records, establish and maintain necessary reserve accounts, recommend selling prices to the Board for each wood sale, and report on finances to the Board and membership.

Appointed Committees:

- The Board by a majority vote may from time to time create or dissolve Committees designed to assist running various functions of the Club.
- Upon creation of a Committee, the Board by majority vote will appoint an individual to run the Committee along with other individuals, if needed, to serve on the Committee.
- Examples of Committees include such functions as:
 - Audio/Visual
 - Historian
 - Kiln Management
 - Membership
 - Newsletter
 - Programs

Club Officer Election:

In February the Board shall select a nominating committee who will present a slate of officers for election at the April General meeting. At this time other nominations for any office may be made from the floor. The vote shall then proceed by voice or hand vote, or by secret ballot. Candidates receiving a majority of the votes shall be declared elected. The new officers will assume their duties at the May Board meeting. If a vacancy occurs during an officer's term, the Board may elect a replacement.

ARTICLE VI - Club Meetings

General meetings shall be held at a time and place as designated by the Board. A quorum shall be 20% of Club Membership.

ARTICLE VII - Amendment of By-Laws

These By-Laws can be amended at any General Meeting of the Club by a two-thirds vote of the active membership present, provided that previous notice of the amendment shall have been given 30 days in advance.

ARTICLE VIII - Disbanding the Club

In the event of the disbanding of the Club, any and all remaining funds may be donated to a non-profit organization to be named by the members at such time.

ARTICLE IX – Liability

The Tellico Village Woodworkers Club, its officers and members shall not be held liable for any injury to participants at Club functions or activities. Members assume full responsibility for their own personal risk of injury to person or property by membership in the Tellico Village Woodworkers Club.

Duties and Responsibilities

OFFICERS

President:

1. Serves on the board of directors and votes on board matters. Attends board and general meetings.
2. Serves as primary contact for club activities. Responds to all inquiries about the club.
3. Assures that the club follows its by-laws and its policies and practices. Assures that board members and chairpersons carry out their duties and responsibilities.
4. Establishes dates, times, and places for board and general meetings, following past practice and coordinating with the board. Prepares agendas and presides over meetings keeping them on track and productive. Brings gavel and officer nameplates to general meetings.
5. Signs checks when treasurer cannot do so.
6. Oversees appointment of nominating committee by the board.
7. Coordinates with the board and key club members on a wide range of matters related to the planning of activities such as wood cuttings, wood sales, tool sales, annual picnic, and the club's contribution to the Loudon County Sheriff's Toys for Tots Program. Sees that any issues are resolved in a collegial fashion. Sees that key vacancies are filled in a timely manner.
8. Recognizes members for their contributions to the club.
9. Makes Past President aware of changes that need to be made to the Resource Book to reflect either board decisions or other changes in the way the club operates.
10. In coordination with the Vice President, recruits members to fill committee vacancies.
11. Approves board minutes before secretary sends them to the members.

Vice President:

1. Serves on the board of directors and votes on board matters. Attends board and general meetings.
2. Performs the duties of the president in his absence.
3. Manages service requests received by the club; Community Service Requests, Contract Service Requests, and Fundraiser Service Requests.

Publishes these requests through the club's e-mail system, finds workers, and assures that requesters and workers get linked up. Reports on the status of Community Service Projects at board and general meetings.

At each general meeting, posts a sign-up sheet where members may indicate their desire to help. If a member informs the vice president that he received no offers of assistance at the meeting, vice president prepares and sends an email to membership seeking help on the member's behalf.

4. Sends updates to the Community Projects section to the website manager for posting to the club's website.
5. Displays information about the current year's Community Service Projects at the Toys-For-Tots program: list of projects, contributing volunteers, and photos. Sends digital photos of current year's Community Service Projects to the historian at the end of each calendar year. Reports the following prior year community projects statistics to the Newsletter Chair each January: # projects completed; # Tellico Village residents assisted; # organizations assisted; and, # club members participating.
6. Makes key members of the log and lumber management team aware of cutting and sale times, if they are not present at the board meetings when these times are set.
7. Serves as the point of contact for local high schools with respect to the donation of excess club lumber. Maintains a list of these contacts and their phone numbers.
8. Makes sure the club's brochure is up-to-date and that there are adequate supplies on hand. Provides the club secretary with brochures for distribution to various locations in Tellico Village.
9. At each general meeting, posts a sign-up sheet where members may indicate their desire for help. If a member informs the vice president that he received no offers of assistance at the meeting, vice president prepares and sends an e-mail to the membership seeking help on the member's behalf.

Vice President Wood Operations

1. Serves on the Board of Directors and votes on Board matters, but does not sit in the line of ascension to the club presidency.
2. Attends Board and General Meetings.

3. Provides reports in the absence of Wood Ops chairpersons.
4. Provides overall management of the Wood Operations organization to provide quality wood products at reasonable cost to meet the needs and wants of club members.
 - a. Needs (Demand)
 - b. Acquisition (Supply) c. Inventory
 - d. Cutting
 - e. Drying
 - f. Sales
5. In coordination with the various Wood Ops chairs, establishes policies and procedures to efficiently perform necessary activities. Provides updates for the Resource Book as needed.
6. In coordination with the Treasurer and other Wood Ops groups, determines wood sale pricing necessary to “break even” unless otherwise approved by the Board.
7. Promotes communications internally between the various Wood Ops chairs, the Board and club membership.
8. Promotes communications externally between various Wood Ops groups and the POA, local tree service contractors and private donors.
9. Initially, addresses the need to improve the Needs, Acquisition and Inventory aspects of Wood Operations. Perhaps establishes a new group, Needs and Acquisition, with a new chairperson.
 - a. Needs (Demand)
 - i. Member interest assessment - species, sizes, special materials e.g., plywood, veneer and dimensional lumber
 - b. Acquisition (Supply)
 - i. Donated materials
 - ii. Purchased materials (Board approval)
 - iii. Transportation, handling and miscellaneous costs associated with wood procurement.

Treasurer:

1. Serves on the board of directors and votes on board matters. Attends board and general meetings.
2. Maintains the club checking account and reconciles monthly with bank statement.
3. Initiates budget discussion at the November board meeting and prepares a budget proposal for approval at the January board meeting. Updates budget as approved by board.
4. Prepares treasurer's report for board and general meetings. Maintains an electronic file of these reports in PDF format and provides this file to the historian at the end of each calendar year.
5. Collects club dues (April 1 full year, October 1 half year) in conjunction with the membership chair.
6. Manages Wood Operation Finances. Collects or arranges for the collection of payments made by club members at lumber sales. Pays or arranges for the payment of sawyer at lumber cuttings.
7. Makes periodic payments for kiln electric usage to the POA based on the kiln meter reading taken at the end of each drying cycle. Makes annual payment to POA for two leased spaces. Maintains kiln amortization fund to pay for major repairs and eventual replacement of components. Maintains profit/loss and yield records from each woodcutting. Re-assesses annually the cost of lumber production. Recommends, at the November board meeting, a selling price for kiln-dried lumber.
8. Advises board on use of funds for the benefit of club. At each board meeting, advises the board of any donations made to the club and processes these donations in accordance with board decisions.
9. Accounts separately for cash donations received by the club for the Loudon County Sheriff's Toys For Tots Program. Periodically transfers these donations to the Sheriff's department, typically annually.
10. Pays all authorized invoices for the club. Reimburses members for expenses they incur on behalf of the club. Obtains appropriate receipts and verifies their accuracy prior to payment. Keeps a file of paid receipts/invoices for 3 months.
11. Reports the following prior year statistics to the Newsletter Chair each January: # of board feet of lumber cut; # board feet of lumber sold; profit or loss from lumber operations; amount of money donated to Loudon County Sheriff by TVWC; amount of money in end-of-year

operating budget; and, amount of money in end-of-year kiln replacement/maintenance fund.

Secretary:

1. Serves on the board of directors and votes on board matters. Attends board and general meetings and provides secretary's reports at these meetings.
2. Sends club meeting notices to advertisers, including the POA's Tel-E-Gram, the Village Connection, and the village television channel.
3. Takes board meeting minutes. Maintains two electronic file folders of minutes--one in PDF and one in word processor format. Sends draft minutes in word processor format to the president for approval. Sends approved minutes in PDF to each board member and the newsletter chair. Sends the annual PDF folder of minutes to the historian at the end of each calendar year.
4. Keeps a running electronic file in word processor format of votes taken by the board. Sends a PDF version of this file to the historian at the end of each calendar year.
5. Monitors all messages sent to the club's e-mail address. Forwards them to club members consistent with the request and club policies/practices.
6. Using the club's e-mail system: prepares and distributes board and general meeting notices; prepares and distributes wood sale/wood cutting notices; distributes special event notices submitted to secretary by other club members (e.g., picnic, field trips, tool swaps, tool sales, blade sharpening, membership renewals); and, distributes "request for services" received from club vice president.
7. Resolves issues related to members not receiving club emails.
8. Submits newspaper articles, invites journalists to TFT program night, and is the focal point for the club on all publicity matters (mostly Toys for Tots). Maintains Tellico Village Directory listing for club. Distributes and maintains an adequate supply of club brochures at various locations within Tellico Village. Coordinates club's participation at Tellico Village "events" (e.g., club table at the POA's annual event to advertise Village clubs/activities and display at Community Church). Advertises club's General meetings in Connection, POA publications, and Village TV station.
9. If the Newsletter Chair cannot be at the general meeting, has each "Show and Tell" presenter fill out a form documenting what they

brought to the meeting. Collects completed forms to later be picked up by the Newsletter Chair.

Past President:

1. Serves on the board of directors and votes on board matters. Attends club board and general meetings.
2. Serves as a consultant to the board.
3. Maintains the club's Resource Book. Forwards quarterly updates to the Website Manager for posting to club website.
4. Serves as chair of the club's nominating committee.
5. Organizes mentoring sessions at least annually. Mentoring may take place in member's shops or off-site facilities. If off-site, makes all arrangements with facility and coordinates transportation and lodging with mentors and mentees. Obtains board approval of any related expenses.
6. Reports the following prior year statistics to the Newsletter Chair each January: # of mentoring sessions (categories); # mentors; and # of mentees.
7. Assures that Committee Chairs report their End-of-Year statistics to the Historian and the Newsletter Chair early each calendar year.

GENERAL COMMITTEES

Annual Picnic Chair

1. Reserves Tugaloo Pavilion at least 9 months before the event. Emails initial announcement of annual picnic 6 to 8 weeks prior to the event.
2. Sends out email for picnic reservations 3 weeks prior to picnic and makes announcement at monthly meeting. Sends out final request for reservations one week before picnic to get accurate head count to buy food.
3. Arrange for emcee and someone to give the blessing.
4. Obtains three volunteer grillers.
5. Finds a receptionist to give out name tags and raffle tickets. Arranges for door prizes.
6. Plans for games and any special programs. Plans for game prizes. Obtains centerpieces for each table.
7. Arranges for the following supplies: serving tables, grilling tables, coolers for drinks, club banner, warming trays, trash container and bags, charcoal and lighter fluid, and various other set-up tools.

8. Arranges for 4 volunteers to help setup the tables and hour and a quarter before the start of the picnic.
9. Based on the number of reservations, plans for the following food and table setting supplies: utensils, plates, napkins, plastic cups, drinks, crushed ice, brats, hamburgers, buns and condiments.
10. Makes suggestions for improvements for next year's picnic.

Audio/Visual Committee Chair:

1. Attends board and general meetings when possible.
2. Shares responsibilities with a co-chair. Assures co-chair is capable of acting in his absence.
3. Serves as the board's technical advisor on all matters pertaining to the club's audio/visual equipment.
4. Sets up, operates, and takes down this equipment at club functions. Understands the Yacht Club's audio/visual equipment so as to achieve an effective interface between it and the club's equipment.
5. Coordinates with presenters at general meetings so that material to be shown is properly stored and then appropriately displayed.
6. With input (primarily digital photos/videos) from various sources, produces slide shows for us at different club functions, e.g., Toys for Tots presentation.
7. When appropriate, has two committee members present at general meetings so that camera and microphones can be fully utilized in support of Program and Show and Tell presentations. Camera support is sometimes needed to allow members seated farther back in the audience to readily see what is being physically presented at the front of the room.

Historian:

1. Attends board and general meetings when possible.
2. Maintains an electronic history file organized by calendar year, backed up on CD or thumb drive. Provides access to club members. Items for this file will be contributed at the end of each calendar year by others as follows:
 - PDF file of newsletters from newsletter chair
 - PDF file of treasurer's reports from treasurer
 - PDF file of board meeting minutes from secretary
 - PDF file of the board's votes from secretary

- Video/PowerPoint presentation from Toys for Tots chair
 - Digital photos of Community Service Projects by vice president
3. Maintains a paper file of other important documents relative to the history of the club, e.g., publicity items, newspaper articles, letters, and pictures. Puts these documents in order, stores them in an appropriate file by year, and provides access to club members.

Membership Chair:

1. Attends board and general meetings when possible. Finds someone to perform duties at general meetings when she cannot be there.
2. Orders new nametag from laser engraver and provides it to nametag box keeper. Annotates the latest copy of the club's Membership Spreadsheet with new member's information, and files copy of member's application form. Emails a membership card to the new member.
3. On January 1st of each year, sends an e-mail to all members saying that their membership may be renewed at either the January, February, or March general meeting and that any changes to their personal information (e.g. e-mail address) may also be made there. After the March meeting, membership forms will be mailed to everyone who has not renewed, making it clear that they will be dropped from the club's membership roster if they do not renew by April 15. Receives completed forms and dues payments and files forms. Notifies the secretary of any e-mail address changes. Annotates the latest copy of the club's Membership Spreadsheet with any changes to members' information, and files a copy of member's new application form (replacing the old). E-mails new membership cards to all who renew their membership.
4. Updates the club's Membership Spreadsheet and the club's Membership List on the club's website to reflect new members, departed members, and when a member's status changes (i.e., name, address, phone number, e-mail), and promptly notifies the secretary of all e-mail changes.
5. If a member dies, updates the Membership Spreadsheet, removes form from file, updates the Membership List on the club's website, and informs newsletter chair of the death so that it can be acknowledged in the next issue.

6. Sees that the photos of club members on the club's website are up to date. Takes photos of new members and members where photos are missing (or has someone else take them) and sends them to the website manager for updating the club's website. Requests that the website manager have photos removed from the website when someone leaves the club and when a member dies.
7. Periodically updates the club membership list maintained by Klingspor, adding new members after there are 5 or more, and deleting those who have dropped out of the club, at the end of each renewal cycle.
8. Reports the following prior year statistics to the Newsletter Chair each January: # member year before last; # members last year; and annual dues per member last year.

Newsletter Chair:

1. Attends board and general meetings when possible. Maintains a team of at least 2 members. Arranges for another newsletter team member to attend in his absence. Reports on newsletter status at these meetings.
2. Coordinates the production of the monthly newsletter. Takes photos (or arranges for others to do so) at club meetings and events. Writes articles and solicits articles from others, editing as appropriate.
3. Publishing guidelines:
 - Maintains, as nearly as possible, a target issue date of the first day of each calendar month for the corresponding newsletter.
 - Recognizes and welcomes new club members
 - Identifies board members and committee chairs
 - Summarizes the last board meeting decisions.
 - In the February issue, reports on prior year statistics based on information provided each January by various officers and committee chairs.
 - Publishes the dates of the upcoming board and general meetings and the dates of other major club activities to include woodcuttings, wood sales, offsite activities, annual picnic, and Toys for Tots program.
 - Highlights program presentations and "Show and Tell" from the last general meeting.

- Recognizes the death of a member by identifying the member's name and date of death in the issue immediately following the death.
- 4. Maintains a file of monthly newsletters in PDF. Sends the current month's newsletter to the secretary for transmission to club members. Maintains the Newsletter and News on the Horizon sections of the club's website. Sends the annual newsletter file to the historian at the end of each calendar year.
- 5. Maintains a file of all photos taken at club events (for the newsletter) and forwards the file to the club historian at the end of each calendar year.

Program Chair

1. Attends board and general meetings when possible. Maintains a team of three members. Arranges for another team member to be present if primary cannot be there. Reports on status of upcoming programs at these meetings.
2. Arranges for a program presentation at most general meetings. Seeks presenters that are interesting and who will contribute to members' knowledge and skills. Solicits program suggestions from club members and discusses program possibilities with woodworking professionals in the area. Also, coordinates internally generated programs, e.g., the club's Spring Challenge and club tool swaps.
3. Invites outside presenters to have dinner with the program chair and the club president at the Yacht Club the night of their presentation. Introduces the presenter at the general meeting.
4. Provides newsletter chair with program and field trip announcements for posting to the club's website.
5. Arranges for field trips, which are normally day trips to companies in the area that are either involved in woodworking or with the sale of wood or other products of interest to club members.
6. As early as possible, advises audio/visual chair of technical support (e.g., lapel microphone, camera coverage, PowerPoint slides, and videos) needed by presenters at general meetings.

Toys For Tots (TFT) Committee:

The committee will internally decide how to operate per the following tasks/responsibilities. The committee may choose to elect a chairperson or to operate as a group with no chairperson. They will also ensure

continuity from year to year by having at least one of the current members, who agrees to serve on the committee the following year.

1. Presentation oversight: The committee will handle all aspects of the club's TFT presentation.
2. Checklist: Maintains a detailed journal of activities consistent with these duties and responsibilities. Obtains approval of checklist by the club president and vice president prior to the July board meeting each year.
3. Early planning: As soon as possible, after each year's December TFT presentation, secures a date for the next year's TFT presentation with the Community Church at Tellico Village. Advises club president when this date has been secured.
4. Through e-mails and general meeting announcements, promotes the formation of teams in August. Organizes and leads the TFT "kick off" presentation at the September general meeting. Invites the Loudon County Sheriff and the Sheriff's TFT coordinator. At the meeting, explains how the program works, presents a schedule of activities, and identifies the teams and individuals who have signed up to build toys.
5. Toy production assistance: Selects 1 to 3 toys for teams to build for each of the following groups: toddlers, young girls, young boys, older girls and older boys. These toys (with plans) should be appropriate for each age/gender group and should be appropriate to being made out of wood: jewelry boxes, games, toddler pull toys or rocking horses or motorcycles, toy kits, etc. The objective is to make fewer, really nice toys rather than make a large quantity of toys.
6. Team Management: Facilitates the formation of toy building teams building "pre-selected" toys or teams that choose to build toys other than the "pre-selected". This specifically includes helping members who would like to be part of a team or create a new one.
7. Publicity: Composes articles and has them published in local newspapers. Prepares a notice and arranges to have it aired on the village television channel. Keeps TFT section of club's website up-to-date by sending changes to the website manager for posting to the website. Places the club's TFT banner, announcing the club's presentation, at the traffic light corner in the village. As soon as possible after the December presentation, removes this banner and stores it. Concurrently, erects another banner thanking the community for its support. Removes this second banner by mid-December.

8. Collection and handling of purchased toys from Tellico Village residents: Places club toy collection boxes at key locations in Tellico Village. Insures that cash donation envelopes are attached to the boxes and restocked as needed. Periodically collects toys dropped in these boxes, stores them, and transports them to the December TFT presentation. Stores collection boxes for use the following year.
9. December presentation at the Christian Life Center: Hosts a planning meeting prior to the November board meeting with the club president and vice-president. Presents a script of what will take place and who is responsible for each aspect of the evening's activities. Invites special individuals to attend--typically local press, representatives of donor companies, and, groups that supported the club's presentation. Coordinates facility setup. Prepares a slide show or video showing highlights of past TFT presentation, pictures of current teams/individuals building toys, and information on this year's Community Service Projects.
10. Post- presentation activities: Oversees facility clean up. Supervises the transport of all the bagged/boxed toys the next morning to a collection site designated by the Sheriff. Prepares thank-you notes for the club president's signature to the local newspaper(s) thanking the community for its support along with other appropriate groups or individuals. Reports back to the club on the programs results. Creates an electronic copy (memory stick) of pictures, statistics, presentations, memos, etc., and sends it to the club historian for archival. Reports the following prior year program results to the Newsletter Chair each January: # of toys made by TVWC and # of toys donated by Tellico Village residents.

Tool Maintenance Committee

Overview: This committee helps club members apply good maintenance and repair practices to their shop equipment. The committee's primary focus is educational assistance, but it may visit member shops to assist in equipment repair and service. It helps club members understand repair and maintenance needs, find and apply information available in user manuals and other reference materials, and establish sound and practical maintenance schedules.

The committee consists of several club members who are knowledgeable and skilled in typical maintenance and repair of woodworking equipment and tools. Committee members are usually proficient in activities such as machine setup, tuning and alignment, replacement of consumable and

wearable parts, lubrication, and minor disassembly/reassembly of key components. Experience and knowledge of topics such as motors, switches, and electrical components might be present at any given time, but is not required. Detailed technical or engineering knowledge might also be present, but is also not required.

Committee Duties and Responsibilities:

1. Provides information and demonstrations of preventive maintenance practices for typical woodworking shop equipment, e.g., inviting members to observe a scheduled maintenance and repair procedure or giving a brief maintenance presentation at a monthly meeting.
2. Compiles, stores, and loans useful reference materials for club members' use in maintaining and repairing their own shop equipment.
3. Reviews requests for on-site shop visits to help club members wanting help with either routine setup, tuning, maintenance, or minor repair to personal woodworking equipment. For more substantial equipment repair requests, reviews the nature and scale of the service request and makes appropriate recommendations and/or referrals to qualified individuals or service providers. Examples of referrals include (but are not limited to) topics such as parts vendors, motor and electrical repair, welding and metalworking services, and bearing sourcing/replacement, among others.
4. For repair requests where the club member expresses an interest in attempting their own repair, assists the member on-site (within reason and to the extent possible given the circumstance) keeping in mind that the primary goal of the committee is not to be a repair source, but to help club members develop skills and self-sufficiency.

Tool Sale Management Chair

1. Responds to requests for club assistance with tool sales. Supports and manages these sales in accordance with the club's published Tool Sale Guidelines.

Website Manager:

1. Maintains club's website in accordance with technical needs and direction from the TVWC board. Note: the only other TVWC members with direct access to the site will be the Membership Chair (membership list additions and deletions) and the Newsletter Chair (newsletter additions and deletions plus News on the Horizon changes).
2. Provides the sole interface between the club and the website host.
3. Trains membership chair and newsletter chair on procedures for updating their sections of the website.
4. Processes changes requested by the club vice president (community project information and photos), the club past president (resource book

- changes), Toys for Tots Chair (information and photos), and individual club members (member project photos).
5. In addition to Membership Chair, takes photos of new club members for inclusion in the website.
 6. Sees that the following sections of the website stay current: Join, Contact Us, Mentoring Program, Technique and Skill Assistance, Member Photos, and Photo Gallery of Member Projects.
 7. Once each year, provides a brief overview of the website at a general meeting.

Welcome Committee

1. Staffs a welcome table at general meetings
2. Greets prospective members and guests, making them feel welcome
3. Provides prospective members with information about the club and answers and questions they may have.
4. Signs up new members, providing assistance with the sign up process
5. Introduces guests, prospects and new members at the beginning of the meeting.

Wheel Chair Ramp Committee

Overview: This committee manages the club's wheel chair ramp requests. Members have knowledge of: the American Disabilities Act (ADA) re. wheel chair ramps; Tellico Village and Loudon County building permit requirements (see "Permits" section (below)); ramp designs; and, efficient and effective construction methods. The committee has a chair, a responsibility rotated among the members, and several members who can be called upon at different times to do the work. Sometimes the work can be urgent. However, members volunteer with no obligation. As members, they only agree to be contacted by the committee chair to ascertain their willingness to work on a particular project. Serving on this committee is an excellent way for new members to both serve the club and build camaraderie with some of its members.

Permits: Tellico Village Architectural Control Committee only requires a permit for exterior wheel chair ramps. The same holds true for Loudon County's Planning and Code Enforcement Office (865-458-4470). While the TVWC can assist, it is the property owner who must apply for the permit. When a permit is issued by Tellico Village, all the property owner has to do is take that permit to the County Office and the county will quickly issue its permit without any additional documentation.

Note: the TVWC does not construct wheel chair ramps for commercial entities due to the risk of public liability claims. The TVWC believes the liability risk associated with building ramps for homeowners is minimal because it is doing the work as "Good Samaritans", and not under contract. Also, as a matter of information, two other Tellico Village organizations, Stay in Tellico Village (STAY) and Kiwanis have, in the past, built wheel chair ramps for Tellico Village property

owners. However, these two organizations have done this on a very limited basis, and would prefer not to build any in the future. Committee responsibilities include:

1. **Site Analysis:** Upon receipt of a request from the club's vice president, assemble a cadre of committee members visit the site to: fully understand homeowner's needs; assess the ability of the committee to meet those needs (especially with respect to ADA); prepare a preliminary design; and, estimate the cost of materials. If the ramp is to be installed outside the home, advises the property owner that both an ACC permit and a Loudon County permit must be obtained before work can begin.
2. **Homeowner Agreement:** After the site analysis is complete and all aspects have been explained to the homeowner, the committee asks the Homeowner to sign the club's Homeowner Wheel chair Ramp Construction Agreement (below). This agreement consists of four parts: 1) agreement with the preliminary design; 2) agreement with any construction that does not conform to ADA due to site constraints; 3) agreement to pay for all materials before the project begins (with the understanding that any surplus will at the end of the project be returned to the homeowner and that any shortfall will, at that time, be made up by the homeowner); and, 4) agreement that the committee, at the request of the homeowner, will remove the wheel chair ramp at no cost to the homeowner and that upon doing so, the ramp becomes the property of the TVWC. Without a signed Agreement, the project will not be pursued by the committee. The agreement form is addendum # 4 at the end of the Resource Book.
3. **Construction Material Management:** In most cases the committee procures all construction materials. If the committee has useable materials from a previous project, the committee may make that material available to the homeowner at no cost. The committee either arranges for the no cost storage of previously used materials or disposes of them.
4. **Construction and Installation:** The committee members perform all aspects of construction, installation, and removal (if requested).
5. **Record Keeping:** The committee maintains a portfolio of completed projects with photos and cost figures. This data is used as an aid to interacting with homeowners on design and cost.

Yacht Club Display Case Chair

1. Maintains the woodworking display cabinet at the Yacht Club, to include the attachment of deceased member's nametags to the memorial plaque on the top of this cabinet.

LUMBER MANAGEMENT Supervised by Vice President Wood Operations

Club Chain Saw Operation/Maintenance Chair

1. Either operates the club chain saw or instructs another club member on how to operate it safely and with proper care in support of the club's log cutting activities.
2. Stores and maintains the saw.

Inventory Control Chair

1. Maintains current inventory of lumber in and outside of the kiln.
2. When inventorying lumber that has been loaded into the kiln for drying, records: a) the types of lumber; b) the quantities
3. Reports on inventory status at board and general meetings.

Kiln Manager:

1. Attends board and general meetings when possible.
2. Maintains a team of at least 3 club members to help manage kiln stacking/un-stacking, operations, and maintenance. Trains team members. Assures that at least one team member is qualified to manage the kiln in his absence. Keeps board informed of any kiln related issues.
3. Opens the Public Works gate and kiln on day of cutting--about the time cutting is scheduled to begin. Insures sufficient stickers are available. Supervises the stacking of lumber to include sawdust removal from boards, cutting boards that are too long, and proper placement of stickers and probes. Advises the Lead for Log Cutting when the kiln is about half full and when it is about 3/4 full so the amount of lumber destined for the kiln is not over-cut.
4. Determines kiln-drying plan based on type(s) of lumber to be dried. Operates kiln in accordance with drying plan, making any adjustments dictated by moisture content or other factors. Monitors moisture content and temperatures daily, either on-site or using remote monitoring. Assures hardware is functioning properly. Reports on drying progress at board and general meetings.
5. Opens the Public Works gate and kiln on day of lumber sale--about 1 hour prior to sale. Supervises the removal of lumber from the kiln. Coordinates with Lead for Lumber Sales to determine proper placement

- of lumber, as it is un-stacked. Assures probes and stickers are properly stored.
6. Takes the kiln electric meter reading at the end of each drying cycle and provides this reading to the club treasurer.

Lumber Purchases Chair

1. Investigates lumber offers made to the club.
2. Makes recommendations to the board regarding such purchases.
3. Coordinates all arrangements with the seller.
4. Coordinates with the club treasurer to make payment if needed.
5. Arranges for transportation to the kiln area if the sale to members is not going to be at the seller's site.
6. Advertises the sale to members.
7. Co-ordinates with the Lumber Sales Chair, following a "break-even" pricing strategy, to sell the lumber to club members.

Lumber Sales Chair

1. Announcing lumber types and price per board foot that is the price set by the board for that sale.
2. Seeing that any special cuts (e.g., eight quarter), requested at the time of cutting, are set aside for purchase by the requestor before the sale begins.
3. Seeing that any lumber that belongs to a log donor is either given to the donor or set aside for the donor before the sale starts.
4. Displaying all the boards to be purchased before the sale begins (if possible).
5. Conducting a drawing to determine the order of rotation for selecting boards and doing so the same way for every sale.
6. Running the sale based on drawing order
7. Making sure any unsold good boards are stored for future sale.
8. Disposing of any trash
9. Insuring any items taken from the kiln storage are returned.
10. Locking up the storage closet and/or back of the kiln.

Saw Master:

1. Attends board and general meetings when possible. Coordinates with the board on log cutting times, which logs will be cut, and any unusual situations that might need to be addressed.
2. Assures that his backup is capable of acting for him in his absence.
3. Coordinates all matters involving the club's presence on the POA site during cuttings and arranges for Public Works equipment operator support for cutting. Coordinates the club's proposed cutting date with Public Works to assure it is acceptable. Calls Public Works after each cutting to be sure the club has left the cutting site in proper order.
4. Evaluates routine (free to the club) log offers to determine if the club wants the logs. Discusses the offer with a board member before making a final decision. In most cases, arranges for log donor to transport logs to POA yard.
5. Evaluates special log opportunities, e.g., walnut and cherry where a cost to the club is involved. Obtains board approval if time permits. Otherwise, obtains approval of either the president or vice president. Makes arrangements for delivery to the POA site and for payment to the seller/transporter.
6. Asks that all logs be cut to 9 feet, but no longer.
7. Maintains an inventory (by species and by bf) of logs at the POA yard waiting to be cut.
8. Arranges for appropriate sawyer. Informs the Lead for Lumber Sales Management of a) any special requests that he has approved for other club members before the cutting and, b) any commitments he has made to a log donor before the cutting.
9. Provides, or arranges for, ancillary equipment for use during the cuttings, e.g., sawdust shovels, a chain saw, a metal detector, a draw knife, an axe or hatchet. Arranges for someone to scan logs with a metal detector prior to cutting.
10. Determines board thickness based on log type/shape and any special requests. Determines which cuts go to the trash pile. Determines which cuts will go to the kiln and which cuts will be air dried in coordination with the Lead for Kiln Operation and/or the Lead for Air Drying Operation and Maintenance.
11. Determines payment amount for the sawyer and arranges for payment of sawyer.

12. Maintains a list of contacts and phone numbers--Public Works, sawyers, and log transporters.

Saw Master Assistant:

1. Able to perform all aspects of the Saw Master's job when needed.
2. Assists the Saw Master at club wood cuttings
3. Assures that the tools used in cutting such as shovels to move sawdust, drawknife to remove bark, axes, etc.) are available and in good condition.
4. Assures that the special tools required to deal with problem logs are available (currently stored in the kiln)
5. Assures supplies (tags, staples markers) are on hand to tag the boards as they are cut

Tellico Village Woodworkers Club Policies, Practices, and Guidelines

Purpose:

Some of the club's policies, practices and guidelines have been developed informally over a number of years. This section documents them.

Annual Picnic:

The club holds a picnic each year for members and their spouses. This is a social event with very little business conducted. One or more club members volunteer to organize the picnic. The club pays for brats and hamburgers that are grilled by member volunteers. The club provides buns and condiments for the brats and burgers, paper plates, napkins, eating utensils, soda, and, water. Club members bring a dish to share and their own beverage if they desire something different from what the club provides.

Audio/Visual Equipment:

The club has its own audio equipment that it uses at its General Meetings and other club events. The screen and projector at the Yacht Club are often used (utilizing the club's computer) to display photos and other visuals during General Meetings.

Blade Sharpening:

Individual members use various sources to get their blades sharpened including those listed in Part 3 of this Resource Book. One of these sources, Larry's Sharpening Service, offers the club a quantity discount. To take advantage of this discount, a club member will periodically ask members if they want to participate in a "club order". If there is sufficient interest, the club member will collect the blades at a General Meeting and then deliver them to the sharpener. He will then arrange for the return of the sharpened blades to the owners. The owners pay the club member who in turn pays the blade sharpener.

Business Meetings:

Club Business Meetings are held on the Saturday two weeks prior to the General Meetings. Business Meetings are held at Little Italy restaurant at 8:15 a.m. An optional breakfast is available during the meeting, paid for by each individual. There is no business meeting in December. Business meetings are publicized via tvwoodworkers.com, the club newsletter, and other Tellico Village publications.

Business Meetings are open to all club members. Technically, a vote by the board at business meetings would be a vote by only its six officers. However, on most votes, the board invites all attending members to participate in the voting process.

Cancellation of Club Meetings and Events:

Occasionally a meeting or event needs to be cancelled due to weather, a scheduling conflict, or some other unavoidable situation. In all such cases, an e-mail announcing the cancellation will be sent to each club member through the club's e-mail system.

Dues:

The club dues are \$20.00 per year. Members joining after October 1st (6 months into the Fiscal Year) only have to pay \$10.00. The board can change the annual dues amount at any time.

Club E-mail (tvwoodworkers@gmail.com):

The club secretary utilizes this e-mail when the club needs to communicate with all its members. The club secretary controls the type of messages that are acceptable for tvwoodworker@gmail.com, basically a wide variety of club business topics. Business uses of tvwoodworkers.com are: advertising club events such as meetings, log cuttings, lumber sales, picnics, and field trips; seeking volunteers to work on community and contract service requests; publicizing requests by individual club members for information, materials, equipment, or buyers for their woodworking material or equipment; notifying the club of the death of a member; and, distributing newsletters and other club documents such as surveys and questionnaires. It may also be used to distribute information about a business provided: a) the business is non-profit; b) the information has broad relevance to club members; and, c) the board has approved its distribution.

Club Wearing Apparel:

The club procures and sells to club members club caps and aprons with the club logo. Members are free to add the club logo to any personal apparel. There is a local business that can embroider the club logo on most any wearing apparel. To have this done, members may contact "Embroidery Boutique" at 865-392-1024 (formerly "Designs For You"), 141 Brooklyn Street, Knoxville, TN 37934.

Club Website (<http://www.tvwoodworkers.com>):

The club maintains this public website. Among other items of interest to club members, it contains:

- Newsletters
- Membership List
- Photos of Club Members
- This Resource Book

Committees:

TVWC has 19 committees which are the backbone of club operations. Committees are small and staffed with volunteer club members. The board determines how many committees are needed, their structure, and their responsibilities.

There are three types of committees:

- 1) a chair (e.g., Historian);
- 2) a coordination/facilitation group (e.g., Toys For Tots); and,
- 3) a chair with one or more backups (e.g., Audio Visual).

Co-chairs volunteer with the understanding that they will assist the chair and eventually assume the chair position. Backups volunteer with the understanding that they will substitute for the chair as necessary.

Because committees contribute so much to the success of the club, it is important that they stay staffed with qualified people. When a committee vacancy occurs, the club president, with the help of the current chair and sometimes others, will recruit a replacement. To maximize the lead time for recruitment, each Spring the president will contact all committee chairs and the current Toys For Tots Committee members to: a) ascertain their willingness to serve for another year; and, b) obtain any recommendations they might have regarding potential replacements should they want to step down. When possible, replacements should be trained by either the chair or the incumbent. Should a recruit have reservations about assuming a job without being exposed its requirements, there can be a "trial period" before a final decision is made.

Display Case at Yacht Club:

The club owns and maintains a display case at the Yacht Club to showcase the talents of its members. The case holds smaller items, which are periodically rotated. The club memorializes its deceased members by mounting their nametags on plaques at the top of the display case.

Field Trips:

From time to time, the club's Program Committee will organize field trips, normally day trips to companies in the area who are involved either with woodworking or with the sale of wood or other products of interest to the club. Car-pooling is normally used. Spouses are invited when the board believes they would enjoy the outing, which sometimes includes lunch in the area.

Mentoring Program:

The club has a mentoring program to expand its member's knowledge and abilities. Under this program, the most recent past president, with board approval, will periodically propose a list of possible projects (e.g., making a table saw sled or making routed trays). If there is sufficient interest from members, the past president will advertise for mentors. The mentors coordinate work sessions, normally in the mentor's shop, where each participant will get to make his or her own project under the mentor's tutelage. Normally each mentee will provide his or her own materials. Sometimes, if the project requires unusual tools, jigs or fixtures, the board may decide to buy these items for all to use in making the project. Mentoring may also be been conducted at a site outside Tellico Village such as the Arrowmont School of Arts and Crafts, which is a national art education center. Offsite mentoring might be multi-day, have an associated facility fee, and, require offsite lodging at the attendees' expense.

Nametags:

The club has wooden, laser engraved nametags for each member. Wearing nametags is encouraged. A club member brings the nametags to General Meetings and some other club events. After the meetings/events, the nametags are collected for use at the next meeting/event. The membership chair sees to it that a nametag is made for each new member.

Officer Term Limits:

There are no officer term limits. Officers may serve as long as they are willing, provided they are elected each year by the membership as provided for in the By-Laws. However, the Vice President serves a one year term and then with club approval will serve the second year as President, followed by a third year as Past President.

Requests for Services:

The club receives a wide variety of requests for its services. For management purposes, it has divided them into three categories: Community Service Project Requests, Contract Service Requests, and, Requests for Donations to Fundraisers. All three are described below. Community Service Projects are considered to be "club" projects because members doing this work represent the club and club management is most often involved. On the other hand, Contract Service Requests and Requests for Donations to Fundraisers are not considered to be "club" projects, because members participate as individuals, representing themselves, with no club involvement beyond publicizing the request.

Community Service Project Requests: The club receives many requests for woodworking projects from individuals and organizations in the area, e.g., requests for furniture repair, tables, shelving, signs, birdhouses, lecterns, cutouts, and wheelchair ramps. Many requests are from churches and charitable organizations. These requests are often charitable in nature and are undertaken because the club's unique knowledge, skills, and abilities can be employed to do work that would otherwise be either impossible or difficult for the requestor to do. These requests are made known to club members using tvwoodworkers.com and in most cases one or more club members will volunteer to do the project, charging neither for their labor nor the use of their equipment or supplies. The requestor frequently buys the material, but sometimes either the club or the club member doing the work donates it. Club officers will sometimes get involved in coordinating large projects. The club vice president reports on the status of community service projects at both Board Meetings and General Meetings. Community service project work will be limited to Loudon and Monroe counties, unless the board approves an exception.

Contract Service Requests: The club also receives requests, mostly from individuals, where the requestor is looking to hire a club member to do a woodworking project. These requests are advertised on tvwoodworkers.com and any member interested in taking on the project is put in touch with the requestor. At this point, the club has no further involvement in the project and keeps no records of it. Assuming there is interest, the club member and the requestor come to terms on the project's composition and costs.

Requests for Donations to a Fundraiser: The club also receives requests to donate handcrafted items to organizations that plan to sell them to raise funds. These requests are advertised on tvwoodworkers.com. The advertisement will identify the requestor's contact information. Members choosing to donate will make their own make arrangements to get their donations to the requestor. The club vice president will inform the requestor that the request has been advertised and that they will be contacted by any member choosing to donate,

not the club. At this point, the club has no further involvement in the donations and keeps no record of donations made.

Tools Available For Member Use:

As a member benefit, there are many tools available for member use. Each of these tools is assigned a tool “Keeper”, a club member, who is responsible for maintaining the tool and making it available to you, free of charge. Note: If a Keeper is unable to continue as such, he/she should notify the club president so that a replacement can be found.

The club will pay for replacement parts and/or professional servicing of these tools, upon approval of the TVWC board. Each tool (when possible) will have attached a plaque stating it is a club asset and is housed by the keeper. Each Keeper has signed an agreement to follow the guidelines set forth here. See “Location of Tools Available For Member Use” in this Book's Table of Contents to find out where these tools are located and who their Keepers are.

Large Shop Tools

Several professional grade shop tools are located in the shops of current club members (Keepers). If a member desires to use these tools he/she should; a) contact the Keeper of the tool and set up a time to use the tool and, b) sign a form that waives liability for the club and the Keeper, if asked to do so by the Keeper.

Portable Tools

These tools may be used in a member's own shop. If a member desires to use one of these tools he/she should contact the Keeper of the tool and set up a time to pick up the tool. It is expected that members will use these tools in a reasonable timeframe and return them promptly.

Toys For Tots Presentation (TFTP):

Each year the club provides the Loudon County Sheriff with hundreds of toys for needy children at Christmas. Club members make many of these. Building these toys provides an opportunity for members to share their knowledge and skills and get to know each other better. Some club members work alone, but groups of woodworkers are commonly formed. The club also collects hundreds of commercial toys via drop boxes that it places throughout Tellico Village.

The club has two co-chairs that coordinate the club's contribution to the **Loudon County Sheriff's Toys For Tots Program**. Each co-chair serves for two years. For continuity, one co-chair leaves each year and a new one comes on. In early December, the public is invited to attend a club-sponsored presentation where the toys are put on display. This presentation is held in the Christian Life Center of the Community Church at Tellico Village. The club makes a donation to the church for the use of the meeting space. On the day of the presentation, club members meet at the Christian Life Center to set up tables and chairs and to display the toys. That evening, toys and monetary donations are presented to the Sheriff. Spouses of club members bring cookies to the presentation and provide punch for everyone to enjoy. The morning after the presentation, club members remove the toys from the Christian Life Center and deliver them to a central distribution point managed by the Sheriff's Office.

The board may decide to set aside a small quantity of toys produced by the club for specific worthy organizations other than the Sheriff's TFTP. Also, if some toys are either not distributed by the Sheriff's Office or come in after the Sheriff's TFTP is over, the board may decide to donate these toys to another organization such as Children's Hospital.

Financial donations to the Sheriff's TFTP: Sometimes people give money in lieu of giving toys. In these cases, the club accepts the money and passes it on to the Sheriff the night of the club's Toys for Tots presentation. Sometimes people want to donate to the Sheriff's TFTP because they are grateful for free services rendered by a club member. In these instances, which occur throughout the year, the donor is asked to mail the check directly to the Loudon County Sheriff's Office, made out to "Loudon County Sheriff's Office Toys For Tots Program". Handled in this manner, the donation is tax deductible (without further documentation by either the Sheriff's Office or by the club) since the Sheriff's TFTP a 501-3C Corporation.

Financial donations to the club: Sometimes people want to donate to the club. In these cases the donor is asked to make the check out to the "Tellico Village Woodworkers Club" and the donor is told the amount is not tax deductible. The club treasurer keeps track of these donations and informs the board of them at each board meeting. The board then decides if it wants the donations to be used for the club's benefit or for another purpose, e.g., the Sheriff's TFTP. All donations earmarked for a specific charity are presented to that charity at the end of the fiscal year. Those earmarked for the Sheriff's TFTP program are passed on to the Sheriff the night of the club's Toys for Tots presentation.

Tool Sales Guidelines:

Tool sales for the purposes of clearing up estates, preparing for moving, etc. are frequent events for the club. In the interest of having these events run as smoothly as possible and to provide the fairest environment for the seller and woodworkers, the guidelines listed below should be followed.

Two types of tool sales are defined.

1. The first type is an official club event where the club is approached and a club member agrees to hold the event with consent of the board.
2. The second type is a private event where an individual(s) who is a friend of the seller holds the event, but the club does not sanction the event, even though club members may be invited as a group. Sellers may also elect to open their sale to club members as a group prior to offering the tools to the public.

Club members shall be notified of the type of event, the sale starting time and date, and the closing time of any silent auctions.

The guidelines below apply to official club events only, although private sellers may find them useful for managing a private event.

A Sale Committee of knowledgeable, volunteer, club members will be formed to handle all aspects of the sale. More specifically, the Sale Committee shall advise the seller of the following requirements:

- Tools for family members, friends, or to be retained by the seller must be marked and set aside prior to preparation and pricing for the sale. Sale Committee members may assist with this process at their option. No other items may be set aside prior to the sale.
- Once the pricing and sale preparation begins, the seller is not to sell tools (other than those previously set aside) to any individual until after the official club sale is complete.
- The seller is not to change any of the prices set by the Sale Committee until the official club sale is complete.

The Sale Committee shall follow these tool-pricing guidelines:

- Tools should be priced with the twin goals of providing the best return for the seller along with selling all of the items.
- High value items (over \$75.00 suggested price) should be sold by silent auction to ensure the best return for the seller along with an equal opportunity for all club members to bid on the items. Bids below the suggested value can be accepted or rejected by the seller.
- Items below \$75.00 in estimated value may also be sold by silent auction to either obtain a higher return for the seller or give more club members an option to purchase an item.

- Mid value items should be priced individually.
- Low value items may be individually priced or combined into ‘value bundles’.

The Sale Committee shall manage the sale according to the following guidelines:

- Both the starting time of the sale and the closing time of the silent auctions should be strictly adhered to.
- No items are to be sold prior to stated times.
- The Sale Committee shall assign one or two of its members to be responsible for the collection and accounting of funds.

Tool Swaps:

The club periodically holds tool swaps “for its members only”. These events may replace a general meeting and have historically been held at the Tellico Village Tugaloo Pavilion. These swaps allow members to opportunity to sell unneeded tools and wood to other members. There are three categories: 1) Silent Auction Items (the larger, more expensive tools); 2) Tag Items (smaller items offered for a specific price and/or “best offer”; and, 3) Free Items (for the taking). The club only facilitates, i.e. all transactions are between the seller and the buyer.

Club Lumber Purchases:

Occasionally the club receives offers to buy lumber. If the club determines that it would be advantageous to its members to purchase this lumber, it normally does so with the intent to sell it to the membership at prices that will allow the club to recover costs. Sales of procured lumber are normally handled in the same manner as sales of club produced lumber.

Log and Lumber Management:

A major activity of the club is to produce low cost lumber for sale to its members. The Property Owners Association (POA), at no expense to the club, allows the club to use the POA storage yard to store logs and to cut them into lumber. The club leases 2 spaces in the POA yard to dry, store, and sell its lumber. The club hires different sawyers to cut its logs into lumber. Club members perform all the other work done at a cutting. They remove slabs cut off the logs, clear sawdust from around the saw, remove lumber as it is sawn, and load the lumber into club member trucks for transport to the kiln. A team of club members cleans the sawdust off the boards and properly stacks it in the kiln for drying.

A club member donated money for the club to build a state-of-the-art kiln. The kiln is only for club use. The kiln allows the club to turn green lumber into a professionally dried product in one-tenth the time it used to take for air-drying. Normally, the kiln is put into operation right after it is loaded with green lumber. However, activation of the kiln can be delayed if daily monitoring would put an undue burden on the kiln monitoring team (say around a holiday). The kiln is not for use by individual club members or by anyone outside the club, even if they are willing to pay.

The club has set up an amortization fund to provide for the maintenance and replacement of the kiln and/or its components and the club pays the POA for the electricity it uses to operate the kiln. The usage is determined by an electric meter that the club installed inside the kiln. The club has added on to the kiln building to provide dry storage for unsold lumber and some of the club's equipment (e.g., chain saw) and supplies.

Occasionally, the board becomes aware of a substantial quantity of dried lumber being offered for sale. The board may bid on the entire lot and then sell it to club members on a cost recovery basis. When the club either has lumber or related materials that are no longer wanted by anyone in the club, the club disposes of it.

The following describes specific responsibilities for each aspect of the club's log and lumber management activity and identifies individual club members who carry out these responsibilities:

Coordinating With Public Works Manager:

Responsibility: A Lead backed up by the president or vice president

- Coordinates all matters involving the club's presence on the POA site and arranges for Public Works equipment/operator support during cutting.
- Before each cutting, coordinates the club's proposed cutting date to assure it is acceptable.
- After each cutting, calls to be sure we left the cutting site in proper order.

Obtaining Logs:

Responsibility: A Lead backed up by the president or vice president.

- Evaluates routine log offers (no cost to the club) to determine if the club wants the logs. Note: in general, the log donor must arrange for delivery of the log(s) to the TVWC cut site at the POA yard. In rare cases, the club will arrange for delivery to the POA yard. If the donor wants part of the lumber cut from his log(s), the following applies:
 - Except in rare cases, the log(s) should be no longer than 9' and the club must get at least 75% of the lumber to be cut from each log(s).
 - To avoid any confusion at the time of cutting, the donor must clearly paint his last name on the bark of all logs from which he wants his lumber cut, when they are delivered to the POA yard.
 - The donating individual must notify the saw master when the log(s) are to be delivered to the POA yard so that the saw master can arrange for the log ends to be painted and have an opportunity to be present at the time of delivery.
 - The donating individual or his representative must be present at the wood cutting where his lumber will be cut because:
 - the donor and saw-master need to mark the ends of his lumber as it comes off the mill so that it is readily identifiable when it comes out of the kiln.
 - if the donor does not want his lumber kiln dried, or only part of it kiln dried, he must be present to transport that part of his lumber away from the cut site on the day of cutting.
 - So that the donating individual or his designated representative can be present at the cutting, the club's saw master will assure to the extent possible, that the donating individual is aware of the date and time of the club's wood cutting, and will do so as early in advance of the cutting as possible. If the donating individual or his representative does not show up at the woodcutting, the donating individual's lumber request will be met to the extent possible.

- Before the log(s) are delivered to the POA yard, the donor must complete a form and provide it to obtain the Saw Master's approval prior to the cutting. This form is Addendum 1 to this Resource Book. Members wanting a copy of this form should go to Addendum 1 and print it out.
- Evaluates special log opportunities, e.g., walnut and cherry where a cost is involved. Obtains board approval if time permits. Otherwise, obtains approval from either the president or vice president. Makes arrangements for delivery to POA site and for payment to the seller/transporter.
- Asks that all logs be cut to 9 feet long, but not longer.

Chain Saw Operation and Maintenance:

Responsibility: A Lead with no backup.

- Note: The club owns a chain saw to support the club's log cutting activities, e.g., cutting off the ends of logs that are longer than 9 feet. This saw is not for individual club member use.
- Either operates the saw or instructs another club member on how to operate it safely and with proper care
- Stores and maintains the saw.

Pricing Lumber:

Responsibility: Board with input from treasurer

Sets the selling price per board foot taking into account the following major expenses:

- Procuring logs (if any)
- Transporting logs (if any)
- Sawing lumber that can be sold
- Sawing lumber that cannot be sold
- Operating and maintaining the kiln (to include the reserve account for kiln maintenance/replacement)
- Pine post beetle spray
- Air drying materials

Note: The treasurer tracks the expenses associated with each lumber cutting, monitors other lumber management expenses, and recommends

prices to the board. The price set by the board at this time is \$1.00 per bf: a) will be the same for all members, whether or not they helped with the wood cutting; b) will not vary because some wood may be more desirable than other; c) will not vary if the wood is kiln dried or air dried; and, routinely reduced if it isn't selling.

At the end of most club wood sales, some lumber is un-sold. It is generally of lower quality, but not always. The wood sale manager (or a board officer) will examine the un-sold lumber and determine which boards are of sufficient quality to be placed in the kiln storage rack for future sale (these would be good quality boards and those that have sizeable sections of good quality). The sales manager will offer the other un-sold lumber to sale participants for free. Any lumber not taken for free will be disposed of by the sales manager.

Scheduling Lumber Sales and Cuttings:

Responsibility:

- The board, with input from those attending board meetings, determines a date/time/place for lumber sales and/or cuttings.
- The saw-master informs all club members of place, time, date, and price per board foot of all wood cuttings.
- The Lead for Managing Lumber Sales informs all club members of the place, time, date, price per board foot (as determined by the board) and wood species available for all wood sales. The sale will commence immediately following the emptying of the kiln.

Note: If the treasurer or any of the "Leads" for Cutting Lumber, Operating and Maintaining the Kiln, Managing Air Drying Operations, Managing Painting Log Ends, Managing Lumber Sales, or Accounting for Inventory is not present at the board meeting, the vice president will contact them shortly after the board meeting to make them aware of the board's decision.

Cutting Lumber:

Responsibility: A Lead with two backups

- Arranges for appropriate sawyer.
- Informs the Lead for Lumber Sales Management of:
 - Any special requests made before the cutting. Note: special requests will only be approved when there is a sufficient quantity of logs to be cut. Special requests are limited to 50 board feet. Members wanting to make a special request must complete a form and provide it to the Saw Master prior to the cutting. This form is Addendum 2 to this Resource Book. Members wanting a copy of this form should go to Addendum 2 and print it out.
 - Any commitments made to a log "donor".
- Arranges for someone to scan logs with metal detector prior to cutting.
- Determines board thickness based on log type/shape and any special requests.
- Determines which cuts go to the trash pile.
- Determines which cuts will go to the kiln and which cuts will be air-dried (in coordination with Lead for Kiln Operation and Maintenance and/or the Lead for Air Drying Operation and Maintenance).
- Determines payment amount for sawyer and arranges for payment of sawyer.
- At the end of most club wood sales, some lumber is un-sold. It is generally of lower quality, but not always. The wood sale manager (or a board officer) will examine the un-sold lumber and determine which boards are of sufficient quality to be placed in the kiln storage rack for future sale (these would be good quality boards and those that have sizeable sections of good quality). The sales manager will offer the other un-sold lumber **at a reduced price** to sale participants or for free. Any lumber not taken for free will be disposed of by the sales manager.

Operating and Maintaining Kiln:

Responsibility: A Lead backed up by members of the kiln management team

- Opens POA gate in time for kiln unloading prior to sales.

- During cuttings, supervises loading of kiln and assures proper placement of stickers and stack probes.
- Keeps the Lead for Log Cutting informed as to the progress of filling the kiln so the amount of lumber destined for the kiln is not over-cut.
- Prepares kiln for drying.
- Monitors lumber moisture content and adjusts temperatures during drying. Keeps board informed on drying status.
- Supervises unloading of kiln--extracts and stores probes.
- Maintains kiln.

Managing Air Drying Operations:

Responsibility: A Lead with two backups

- Note: Lumber will be kiln dried unless it is not feasible to do so.
- Determines storage location for new lumber and re-stacks previously dried lumber as necessary.
- Supervises stacking of lumber for air-drying.
- Sees that powder post beetle spray is applied, if needed.
- Stores powder post beetle spray and sprayer.
- Assures stacks are properly stickered and covered.
- Supervises un-stacking of lumber for lumber sales.
- Keeps area free of trash and lumber debris.
- Maintains an adequate supply of good stack covering materials.
- If unwanted lumber accumulates, proposes to the board that it be donated or trashed.

Managing Turning Stock:

- Turning blanks are pieces of wood suitable for lathe work. They are generally sections of logs/limbs (straight sections, crotches, burls, etc.). The club obtains blanks from a number of sources such as club woodcuttings, club members, non-club members, and tree surgeons. Turning blanks need special handling as outlined here.

- Responsibility: A lead with two backups; these members are referred to in this write up as Turning Blank Managers.
- Delivery of Turning Blank Material to the Club:
Turning blank material should not be delivered to the club or accepted on behalf of the club without the approval of a Turning Blank Manager. Any member who obtains such material for the club or learns of its availability should first contact a Turning Blank Manager to see if the club wants it, and if so, how it should be handled. (for the names of our Turning Blank Managers, see Resource Book-Lumber Management Section: Individuals Responsible by Area). Note: If a member acquires some turning blank material and wants to dispense it to club members from their home, they may do so without contacting a Turning Blank Manager.
- Turning Blank Material Generated from Club Wood Cuttings:
Sometimes, turning blank material is generated at wood cuttings, either by design or as a byproduct of cutting lumber. A Turning Blank Manager should be present at wood cuttings to see that any such material is properly prepared and stored. If none of the Turning Blank Managers can be present, then the Saw Master should be so advised before the cutting. Then after the cutting, a Turning Blank Manager should contact the Saw Master to find out the status of any turning material generated during the cutting and then see that it is properly handled.
- Preparation and Storage:
If turning pieces obtained by the club are deemed to be too large, they should be sawed into manageable sizes. In general, a turning blank should be cut so that its length is slightly longer than the log/limb diameter. Large crotch pieces may need to be sawed vertically through the crotch. If a club member or a Turning Blank Manager does not have access to a chain saw, the club Chain Saw Manager should be contacted and arrangements made to have him cut the blanks.
After sawing, the ends of the blanks need to be promptly sealed with wax or a wax emulsion to prevent cracking. If this is not done by the club member who obtained the blanks, then it should either be done by the Turning Blank Manager or by

others under the Turning Blank Manager's supervision. The blanks may either be stored outside the kiln or on the floor between the kiln storage racks.

- **Making Blanks Available to Club Members:**
Blanks are priced at a nominal fee to members, normally on a first come, first serve basis. Normally, members desiring blanks can simply go to the kiln storage area and pick them up. If the gate to the kiln area is locked, members should make arrangements with a Turning Blank manager to gain access.
- **Notification of Club Members:**
When new turning blanks have been obtained, properly prepared, and stored, a Turning Blank Manager should prepare an e-mail for the club secretary to transmit to all members announcing its availability. This e-mail should describe the new stock as to type of wood, number of pieces, general dimensions, and where it is located. It should also say it is available on a first come, first serve basis, unless the board has decided otherwise.
- **Disposal of Unwanted Material:**
About 30 days after the secretary's e-mail notification has been sent to club members, Turning Blank Managers should either trash the unwanted material or make arrangements to give the material to turners in other organizations, such as the Smoky Mountain Turners.

Managing Lumber Sales:

Responsibility: A Lead with two backups

- Assures a fair and standard process for members to select lumber for purchase by:
 - Announcing lumber types and price per board foot that is the price set by the board for that sale. Members will be reminded that a board foot is 144 cubic inches (nominal 1" x 12" x 12")

and that a 12" x 12" section of a nominal eight-quarter board constitutes 2 board feet.

- Seeing that any special cuts (e.g., eight quarter), requested at the time of cutting, are set aside for purchase by the requestor before the sale begins. Members taking special cuts will be reminded that they must skip a number of normal selection opportunities until they have skipped selecting enough boards to offset their special cuts.
- Seeing that any lumber that belongs to a log donor is either given to the donor or set aside for the donor before the sale starts. Note: the ends of the donor's lumber were uniquely painted at the time the lumber was cut, as agreed to by the donor and saw-master.
- Displaying all the boards to be purchased before the sale begins (if possible).
- Conducting a drawing to determine the order of rotation for selecting boards and doing so the same way for every sale. Every member present will be given a unique number. The manager will randomly pick a starting number to initiate the sale. The manager will typically announce the first five numbers to select their board. The rotation for cycle two will be reversed, i.e., the last member to make a selection in round 1 will get to make the first selection in round 2. At this point, the cycle will again be reversed. This process of reversing cycles will be repeated until the sale is over. Note: reversing the order at the end of each of cycle is done because the board feels this adds an element of the fairness of the selection process. The Sale Manager may increase the number of boards a club member may select at one time either when interest wanes or the sale needs to be expedited.
- At the end of each sale, sees that:
 - Unsold, good boards are stored for future sale.
 - Any trash lumber and/or debris are transported to the trash area.
 - Any items taken from the kiln storage are returned.
 - Locking up the storage closet and/or back of the kiln.

Accounting for Lumber Inventory:

Responsibility: A Lead with one backup.

- Maintains current inventories of lumber both in the kiln and outside the kiln. When inventorying lumber that has been loaded into the kiln for drying: records a) the types of lumber; b) the quantities; and, c) the corresponding colors that have been painted on the ends. If some of the lumber has not been painted, marks the ends of a few such boards either with a magic marker or some other means to indicate the wood type.
- Reports on inventory status at board and general meetings.

Kiln Storage Area Management:

Responsibility: A Lead with three backups:

- Upon request by a club member, provides access to unsold lumber from previous wood sales. In this regard, inform the club treasurer of the number of board feet of lumber taken by the member and the cost per board foot. It is the member's responsibility to make timely payment to the treasurer. The cost per board foot will be the selling price at the wood sale from which the lumber was unsold.
- Assures that the kiln storage closet and the POA gate are secured upon departure.

Individuals Responsible by Area

Coordinating with Public Works Manager:

Lead: Robbie Pierce

Backup: President or Vice President

Obtaining Logs:

Lead: Bob Fagerline

Backup: President or Vice President

Lumber Pricing:

Lead: Board with input from treasurer

Scheduling Lumber Sales and Cuttings:

Lead: Board with input from Leads

Lumber Cutting:

Lead: Robbie Pierce

Backup: James Kaprock & Scott Duncan

Club Chain Saw Operation and Maintenance:

Lead: Dick Hoffmann

Kiln Operation and Maintenance:

Lead: Larry Gardner

Backups:

Turning Stock Management:

Lead: Dick Hoffman

Backup: Herb West

Lumber Sales Management:

Lead: Nancy Kessler

Backup #1:

Resources Available to Club Members

This section of the Resource Book is designed to aid club members in finding woodworking tools, products, and services both locally and nationally. It also includes information on club owned tools, specialty tools that club members own that the owner has agreed to lend to club members, and club members that have volunteered to serve as mentors helping other club members learning a unique woodworking skill.

This section will be periodically updated as you and other club members identify new resources. If you have something you think should be added, contact the club member responsible for the Resource Book. We want the Book to be manageable in size so it can be easily printed. Any additions must be unique and be a well-established sizable business. Please understand that not all suggested additions will make the book. For that reason, we have also included a section where you can add your personal favorites.

Tools Available for Member Use

As a member benefit, there are many tools available for your use. There are three types of tools:

- Large stationary shop tools owned by the club, located in club member shops. These “Keeper”, club members, are responsible for maintaining the tool and making it available to you, free of charge.
- The club also owns a number of loaner portable tools that can be used in a member’s own shop, also free of charge.
- Lastly, many club members have made their personal tools available to other members. Most of these can be borrowed from the owner and used in your own shop. Other are large stationary tools that must be used in the owners shop.

To use any of these tools, simply call the owner (or keeper) and make arrangements to use it. Please make sure that if you borrow portable tools, you use them promptly and return it the owner in a timely manner.

The following is a consolidated alphabetized list of available tools showing:

- A description of the tool
- If the tool is owned by the club or a club member,
- Whether the tool is portable, and
- The keeper/owner.

Tool	Owner	Lend Out	Use In Shop	Owner/Keeper
Air Brush - (requires air compressor)	Member	X		Dick Hoffmann
Air quality monitor	Member	X		Dave Breen
Angle grinder w/ Arbortek attachments	Member	X		Tom Lewis
Band Saw 18" 1/2"	Club		X	Ron Cirincione
Bandsaw Convex Curve Cutter Jig	Club	X		Dick Hoffmann
Biscuit cutter: R1, R2, & R3 sizes	Member	X		Gene Yeager
Biscuit joiner, MINI (1/2 - 3/4 biscuits)	Member	X		Don Schmidt
Biscuit Jointer	Club	X		Don Schmid
Cabinet door handle jig	Member	X		Bob Brown
Cant Hook	Club	X		Bob Brown
Carving chisels	Member	X		Nancy Kessler
Circle jig for bandsaw (24" radius)	Member	X		Dave Breen
Circular Saw	Club	X		Stored at Kiln
Circular Saw	Member	X		Don Kimbrel
Clamps of different styles and sizes	Member	X		Gene Yeager
Clamps: 8 - 50" K Body REVO Parallel Bar Clamps	Club	X		Jack Ernst
CNC Router	Club		X	Ron Cirincione
Domino - Festool DF500	Member	X	X	Mike Halligan
Domino machine & assorted tenons	Member		X	Jim Chapman
Dovetail fixture (Craftsman, up to 18 inch)	Member	X		Gene Yeager
Dovetail Jig - Craftsman	Club	X		Tom Ringenbach
Dovetail Jig- Leigh Std.	Member	X		Stu McFadden
Dovetail Router Tbl. Jig & Bits - Leigh	Club		X	Tom Ringenbach
Drill Bit - Metric Set	Club	X		Tom Ringenbach
Drill Bits - Forstner Bit (4" diameter)	Member	X		Gene Yeager
Drill Bits - Forstner Bits (1/4 to 2 1/8" in 1/16" increments)	Member	X		Don Schmid
Drill Bits - Forstner bits (2 3/4, 3 1/8, 3 1/4, & 4")	Member	X		Gene Yeager
Drill Bits - Forstner bits (2 3/8" and 2 7/8")	Member	X		Bill McKeel

Drill Bits - Forstner Bits (3/8 to 3 1/8" in 1/8" increments)	Member	X		Dave Breen
Drum Sander 38"	Club		X	John Johnson
Drum Sander 25" dual drum	Club		X	Aaron Cox
Elliptical Router Jigs	Club	X		Dick Hoffmann
Edge sander (Acme 2C 2.5" x 60" belt)	Member		X	Bill Nance
Engraver (Dremel)	Club	X		Tom Ringenbach
Hinge template jig (1 3/8 and 1 3/4 doors)	Member	X		Bill Whipple
Hole saws with arbor (3" and 3.5")	Member	X		Bill McKeel
Horizontal borer (single bit)	Member		X	Bill Nance
Hydraulic 20-ton H-frame press	Member		X	Bill Nance
Jointer (12" Northfield)	Member		X	Bill Nance
Jointer (6")	Member		X	Jim Chapman
Jointer 8"	Club		X	Bruce Barbe
Kreg Drawer Slide Mounting Jig	Member	X		Tom Borloglou
Lathe (Jet 18" throw, 40" length)	Member		X	Dick Hoffmann
Metal Detector	Club	X		Bob Brown
Miter guillotine chopper (Morso)	Member		X	Bill Nance
Mortiser (1/4,5/16,3/8,1/2")	Club		X	Dave Breen
Nail Gun - Pneumatic Pin Nailer	Member	X		Dick Hoffmann
Noise meter	Member	X		Dave Breen
Panel Cutting Saw & Guide (8")	Club	X		Lloyd Donnelly
Planer (Powermatic 15")	Member		X	Jim Chapman
Planner 15"	Club		X	Bob Brown
Plug cutters	Member	X		Gene Yeager
Pneumatic Stapler	Club	X		Dave Breen
Power Hand Plane	Club	X		Roger Calendin
Power Hand Plane	Club	X		Dick Hoffmann
Precision Straight Edge	Club	X		Bob Brown
Right-angle drill (Milwaukee large)	Member	X		Bill Nance
Rosette Drill Press Cutter	Member	X		Gene Yeager
Roto Zip Tool	Member	X		Tom Borloglou/
Roto Zip Tool	Member	X		Dick Hoffmann
Router	Member	X		Dave Brunson
Router Bit - Bowl Routing Kit	Member	X		Tom Borloglou
Router Bit - Bullnose (1/2", 3/4" & 1" w 1/2" shank)	Member	X		Mark Knott
Router Bit - Bullnose Bit (3/8" w 1/2" shank)	Member	X		Lloyd Donnelly
Router Bit - Chamfer (22.4 degrees w 1/2" shank)	Member	X		Lloyd Donnelly
Router Bit - four 1/4" beads - 1/2" shank	Member	X		Dick Hoffmann
Router Bit - Keyhole (1/2" shank)	Member	X		Lloyd Donnelly
Router Bit - T-Slot	Member	X		Gene Yeager

Router Bit - two 1/4" beads -1/4" shank	Member	X		Dick Hoffmann
Router Bit -Straight (1" dia w 1/2" shank)	Member	X		Lloyd Donnelly
Router Bits - Mini Bits	Member	X		Mark Knott
Router bits (custom shape HSS)	Member	X		Bill McKeel
Router Lathe (Spindale Machine)	Club		X	John Johnson
Scroll saw	Member		X	Dick Hinze
Scroll saw (Dewalt)	Member		X	Jim Chapman
Shaper	Member		X	Dick Hintz
Slab-flattening Jig (Woodhaven 28" x 96")	Member	X		Tony Grenis
Slab-flattening router sled (homemade)	Member	X		Bob Brown
Spindle/belt sander	Member		X	Jim Chapman
Spindle/belt sander (Ridgid)	Member		X	Bob Fagerlin
Spray booth Portable	Member	X		Jim Chapman
Steam Box with steam generator: 40" and 24"	Member	X		Dick Hoffmann
Table saw	Club		X	Tony Grenis
Tap` and die (Wood, 3/4 holes)	Member	X		Norm Coe
Tenoning machine, single-end (Milbury 3/8")	Member		X	Bill Nance
Thread-making kit (1 1/2" x 6" for wood)	Member	X		Tom Lane
Vacuum Press (bags and vacuum pump)	Club	X		Denis Stanzick
Vacuum Press (bags and vacuum pump)	Member	X		Dick Hoffmann
Wood burning kit	Member		X	Dick Hinze
Wood burning kit (Burnmaster)	Member	X		Bob Brown
Wood burning kit (multiple pens)	Member	X		Tom Lewis
Wood burning kit (two pens)	Member	X		Bill Nance
Wood lathe and chuck (Jet mini)	Member	X		Bob Brown
WorkSharp	Club	X		Tom Ringenbach

Technique & Skill Assistance

To help develop woodworking skills, a number of members have volunteered to help answer questions and guide other club members in a specific woodworking skill. If you want to learn a new skill or improve on an existing skill, simply contact the mentor and make arrangements to talk or meet.

<u>Skill</u>	<u>Mentor</u>	<u>Mentor's Phone Number</u>
Finishing/Refinishing	Dick Hoffmann	458-0455
Inlays	Dick Hoffmann	458-0455
Intarsia	Rick Mannarino	386-8267
Turning	Dick Hoffmann Tom Borloglou	458-0455 657-9197
Veneering	Lloyd Donnelly	458-4194

The Tellico Village Library also maintains a large number of books and videos on woodworking that can be checked out of the library. These include various woodworking books, books on wooden toys, instructional DVDs and DVDs of past club programs.

Lumber Yards & Wood Supply (within Driving Distance)

ADDENDUMS

To print any of the forms in this section, go to the Tellico Village Woodworking Club website home page and click on the “Print Forms” tab (below the Resource Book tab).

#1 -- AGREEMENT BETWEEN TVWC AND LOG DONORS

Agreement Between TVWC and Log Donors

I plan to donate the following log(s) to the TVWC:

<u>Number</u>	<u>Type</u>	<u>Approx. Dia.</u>	<u>Approx. Length</u>
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

I will arrange for the delivery of the above log(s) to the TVWC cut site at the POA yard and will notify the TVWC saw master when the delivery is to take place.

Before my log(s) is delivered to the POA yard, I agree to paint my last name clearly on the bark of all logs from which I want my lumber cut.

I understand that the TVWC will give me the following lumber to be cut from my donated log(s):

<u># Pieces</u>	<u>Thickness</u>	<u>Width</u>	<u>Length</u>
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

I or my representative will be present at the time my lumber is cut.

<u>Donor Name</u>	<u>Donor Address</u>	<u>Donor Phone #</u>	<u>Donor E-mail</u>
_____	_____	_____	_____

Donor signature_____ Date_____

Saw Master signature_____ Date_____

#2 -- AGREEMENT BETWEEN TVWC AND A MEMBER MAKING A SPECIAL REQUEST FOR LUMBER AT A CLUB WOODCUTTING

Agreement between TVWC and a member making a special request for lumber at a club woodcutting

I request that the TVWC cut the following special cut(s) from the _____
(indicate species, e.g., Walnut, Cherry) log(s) scheduled to be cut at the next club woodcutting.

# Pieces	Thickness	Width	Length
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

I or my representative will be present at the time my lumber is cut.

I understand that my special cuts will be limited to 50 board feet. I further understand that I will not be able to participate in the random drawing at the wood sale where my special cuts will be made available until all members have had the opportunity to select approximately 50 board feet of lumber for themselves, which will be determined by those running the wood sale.

Saw Master signature _____ Date _____

#3 --AGREEMENT BETWEEN THE TVWC AND A CLUB MEMBER HAVING HIS PERSONAL LOGS CUT BY THE CLUB'S SAWYER AFTER A CLUB WOOD CUTTING

Agreement between the TVWC and a club member having his personal logs cut by the club's sawyer after a club wood cutting

I plan to have the following log(s) cut at the next TVWC wood cutting and I understand that I will receive no special notification of this cutting.

<u>Number</u>	<u>Type</u>
_____	_____
_____	_____
_____	_____

I understand that my log(s) will be cut after the club's logs are cut and I understand that I am responsible to:

- arrange for the transportation of my log(s) to the club's cut site at the POA yard and to inform the club's saw master prior to delivery so that he or his representative have the opportunity to be present when the logs are delivered.
- have my last name clearly painted on all my logs prior to delivery.
- be present at the club's wood cutting at the time my log(s) is ready to be cut, and if I am not, I understand my log(s) will not be cut.
- scan my logs to for imbedded metal prior to the cutting.
- make all arrangements with the club's sawyer at the time of the club's wood cutting with respect to the cutting of my logs and what the cost will be.
- make all arrangements to off load my lumber from the saw mill and to transport my lumber away from the POA yard soon after my logs are cut
- make all arrangements to clean up the cut area of my sawdust and other debris before leaving the POA yard. In this regard I understand that my sawdust may be disposed of on the club's sawdust pile and that my slabs may be disposed of on the club's slab pile.
- pay the sawyer for cutting my lumber before leaving the POA yard.

Signature of member _____ Date _____

Signature of club's Saw Master _____ Date _____

#4--AGREEMENT BETWEEN HOMEOWNER & TVWC FOR CONSTRUCTION OF A WHEEL CHAIR RAMP

Agreement between Homeowner & TVWC for construction of a Wheel Chair Ramp

This agreement pertains to the construction of a wheel chair ramp on the property of a homeowner by representatives of the Tellico Village Woodworkers Club (TVWC).

I the undersigned:

1. Agree with the preliminary ramp design shown to me by the TVWC representative.
2. Understand that this design has to deviate from the requirements of the American Disabilities Act in the way described below:

3. Understand that if a building permit is required, that I must apply for it and that work cannot proceed without the permit.

4. Agree to pay for all materials based on the estimate given to me by the TVWC representative before any construction begins. I understand that if the estimate is low, I will pay the additional amount and if the estimate is high, I will receive a refund.

5. Understand that if either I or my family requests that the TVWC remove the constructed ramp, the TVWC will do so as promptly as possible at no cost to me. Should this be done, I understand that the ramp is then the property of the TVWC.

Signed this date ():

Homeowner _____
